

Getting Started

- Unscrew the cap and install the rechargeable battery into the handle of the light.
- Put the battery in (+) end first
- Screw the cap on so it is tight

Using the Light

- **Flashlight Mode:** push the small silver button near the plug jack to use the flashlight
- **Timing Light Mode:**
 - Attach the pickup to your #1 spark plug wire
 - Plug the end into the jack on the light
 - Press the silver button on the other side of the light to activate the timing light

Charging the Light

- Plug the small end into the cap on the timing light
- Plug the big into a USB compatible port
- A red light appears on the cap while charging
- The light will turn green when fully charged
